

ASHLEY LAKE LAND USE ADVISORY COMMITTEE

MINUTES of May 20, 2010

Attendees: B. Kandarian, L. Hart, C. Hoffman, M. Boardman, T. Coleman, D. Ramos

ALPOA Representative: Liz Makman

Guest: Ed Speelman

Old Business:

Election of officers Dick Ramos, Chairman, Mark Boardman Vice Chairman there were no nominations for the position of Secretary.

Ed Speelman name has been submitted to the commissioners as replacement for Rob Driscoll who resigned from the committee.

Ed Speelman gave a presentation on the geology of Ashley Lake. There are six (6) type of rocks that form the geology of the Lake and the overview of the geological History. Samples of the rock were available for exhibit. A specific issue was stated that should bedrock be too close to the surface. It would impact septic systems.

Ed further commented that he has found that dust has not impacted the lake. He has pulled rock from 50 feet below the lake surface finding no evidence of dust/silt.

Other business carried over from previous meeting was the discussion of the bid for Road surfacing from Knife River. The bid would be used only as reference for information.

Some discussion on county sign standards, septic is regulated through density.

Andrew recommended that the list of opportunities and concerns be combined with the 2008 ALPOA survey and the committee meet every two weeks starting June 3, 2010. The meeting would be in the form of a sub-committee to discuss issues and opportunities.

Meeting adjourned at 8:50PM

Dick Ramos-Secretary
